PREMIUM POWDER
COATED ALUMINUM
SCREEN RAIL

PREMIUM POWDER COATED ALUMINUM SCREEN RAIL

FEATURES & BENEFITS

- Convenient kits for simple planning and ordering. Screens are 6ft long and 8.5ft or 12ft high. Panels are 36in or 42in high.
- Short lead times and competitive pricing
- Innovative locating blocks and brackets for seamless installation and a clean, contemporary look
- High quality powder coat finish meets AAMA 2604 specifications
(Installations within one mile of the ocean require upgraded AAMA 2605 specified powder coating)
- Proudly assembled in the USA
- Engineered, tested and IBC code compliant up to 9ft high
- The railing is in the same profile as the screen, saving deck space
- Exact color matching though integrated railing and framing system
- 20 year non-prorated limited warranty – the strongest in the industry
