PRE-FABRICATED ALUMINUM BALCONY SYSTEMS

ABOUT ALUMINUM FRAMING SYSTEMS

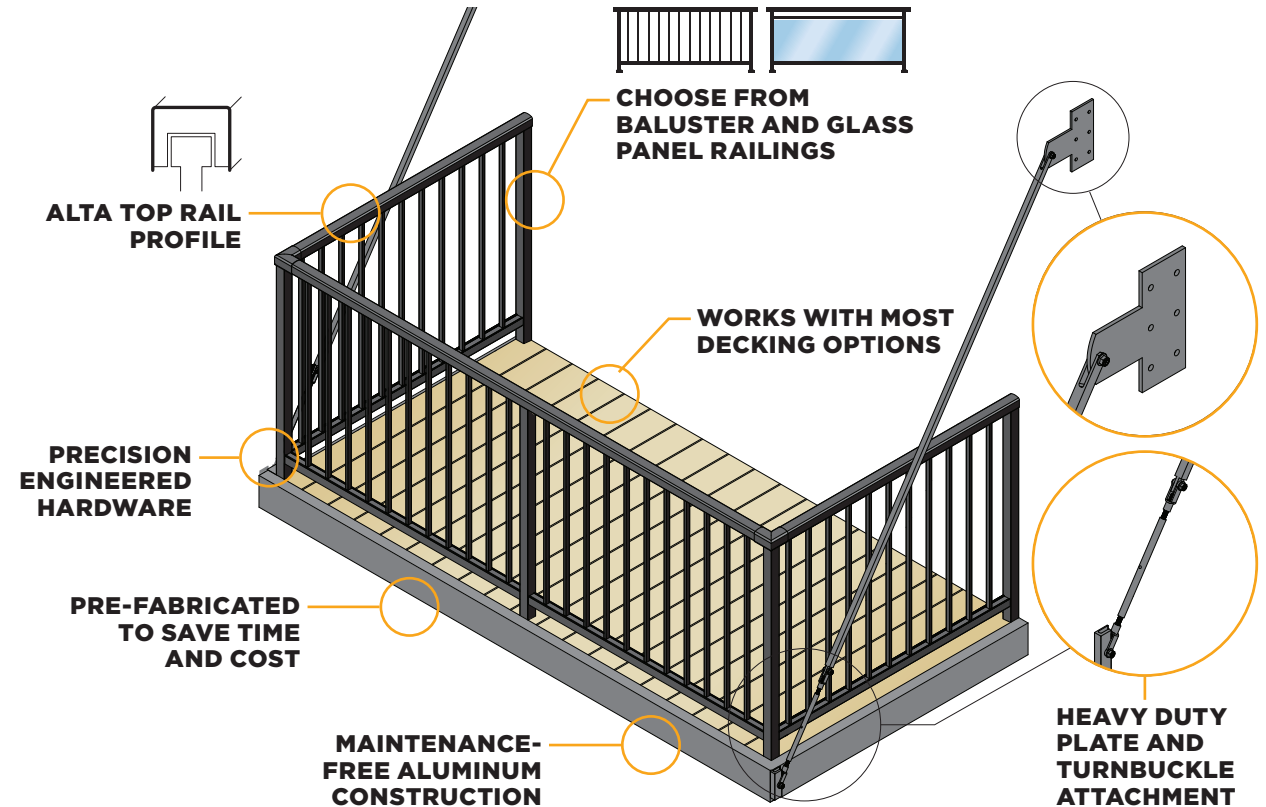

The Ultralox® Aluminum Framing System is engineered to meet the demands for longer lasting and better-looking commercial projects. Our patented frame design utilizes aluminum instead of wood, making it easy to install and shortens construction time from days to hours.

The Ultralox Aluminum Framing System not only improves the look and performance of most decking materials but also lowers the total cost of ownership.

Contractors and property owners agree, the Ultralox Aluminum Framing System is the first step to a better-built, beautiful and cost-efficient project.

ALUMINUM FRAMING FEATURES & BENEFITS

- **Patented system with pre-engineered sections** for quick set up saves install time and money
- **Quick-lock technology** for rapid assembly and precise framing
- **Use aluminum decking or pavers** for a fire proof system
- **Stronger and safer** – supports 100 lbs. per sq. ft., exceeding most commercial codes
- **Longer and lighter** – 31% longer spans and 40% lighter than treated lumber
- Rooftop amenity decks **reduce pedestal count**, typically by 40% or more
- **Easy installation** – less tools to install means quicker installation and even less to maintain
- **Regional Installation and Support** with monthly training sessions

ABOUT ALUMINUM BALCONY SYSTEMS

Balconies are our escape to fresh air and sunshine. They provide an experience that cannot be compared to looking out a window. Balconies add value to multi-family buildings, as many people desire rental properties with balconies as a feature.

Ultralox® Aluminum Balcony Systems stand up to extreme conditions and will never rust, warp, or rot, which makes our systems superior to steel, composite, or wood. Ultralox® balcony systems are designed for long term durability.

Ultralox offers traditional baluster panels or full glass panes – the clear solution to a great view.

BALCONY SYSTEMS FEATURES & BENEFITS

- **Fully assembled balconies built to specifications** save install time and money
- Choose from a variety of **Ultralox baluster and glass railing systems**
- Precision-engineered for **multi-family, commercial and residential applications**
- **Long lasting** – won't warp, bow, split, mildew, rust or decay
- **Low maintenance** – easy cleanup with soap and water
- **Regional/local** manufacturing, installation and support with national distribution
