VICTORIAN

ALTA

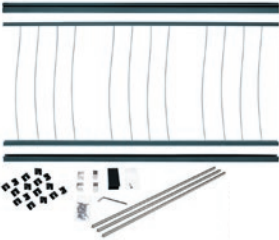

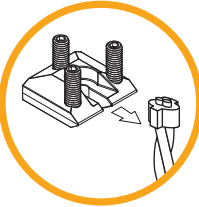

DRINK RAIL

For the Drink Rail, the Bottom Rail Snap is used as the Top Rail Snap which supports the bracket and the Drink Rail. Drink Rail is used for deck panel only.

VERTICAL CABLE

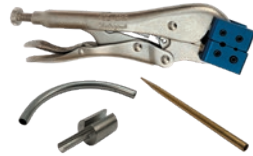

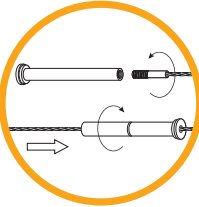

Ultralox® Vertical Cable Railing is a revolutionary system with **pre-installed cables** and easy to adjust **Deck & Stair Tensioning Blocks** with set screws.

Convenient Kits allow for easy planning and ordering.

HORIZONTAL CABLE

Ultralox® Horizontal Cable Railing is an easy to install system with **Fast Fitting Hardware** for simple tensioning and **pre-drilled posts** for smooth cable threading.

All necessary cable tools are available.

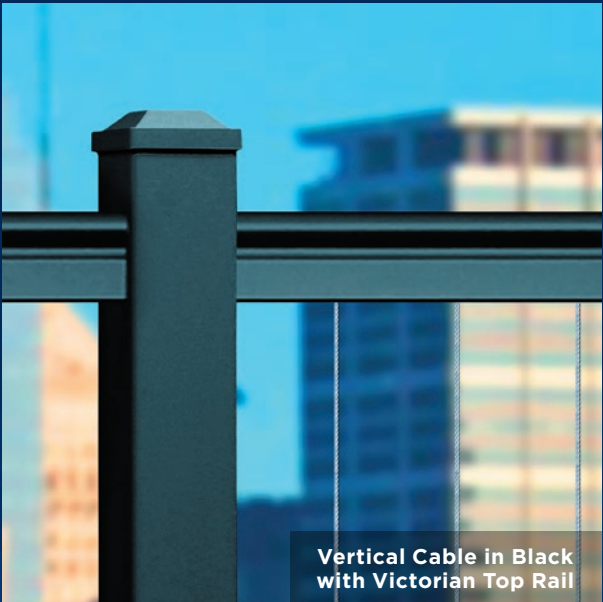

Cable Gripper Tool, Horizontal Cable Tool Kit, and more.

Horizontal Kits do not include cable. Cable kits are purchased separately.

PREASSEMBLED PANELS*
Fast and easy installation
*Vertical Cable

CONVENIENT KITS
Simple planning and ordering

Horizontal Cable with Victorian Top Rail in Bronze

THREE EASY STEPS

PLAN YOUR PROJECT

SELECT YOUR KITS

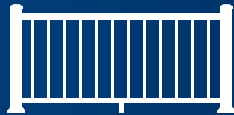

INSTALL YOUR RAILING

Find your railing style and color, then choose from 6ft or 8ft sections for your specific layout. Add gates, lighting and ADA handrails to finish your outdoor living space.

IMPORTANT NOTES:

- Actual picket panel sizes: 6ft Panels = 69.43in; 8ft Panels = 91.31in.
- 3in posts are required to reach 6ft & 8ft lengths.
- Stair railing panels are adjustable and will accommodate 30-40° stair angles.
- **42in post kits are required for middle and bottom stair posts with a 36in railing system. 48in post kits are required for middle and bottom stair posts with a 42in railing system.**
- 45° deck angles require 22.5° clips applied to each side of the post. The 22.5° clip kit is sold **SEPARATELY**.
- Two 3in posts are recommended on top of deck surface if stair riser is not at a 90° angle from deck frame.
- The Horizontal Cable Systems require pre-drilled Ultralox Cable Posts. The Vertical Cable Systems use standard posts.
- 2in Cable and Standard Posts are used for continuous (over-the-post) applications.

FULL SELECTION OF ULTRALOX® RAILING SYSTEMS

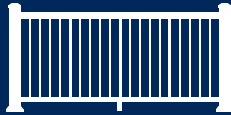

BALUSTER RAILING

The Aluminum Baluster railing system is a traditional accent for any home.

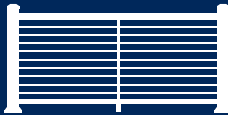

GLASS RAILING

Ultralox® Glass railings offer a clear solution to a great view.

VERTICAL CABLE

Easy installation with preassembled Vertical Cable Panels.

HORIZONTAL CABLE

Maximize the view with Stainless Steel Horizontal Cables.
Offered in two styles: Full Frame and Top Rail.

CONTINUOUS BALUSTER

Use 2in posts, baluster railings and Continuous Top Rails for a seamless look.

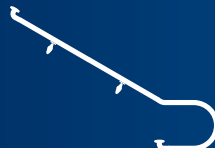

DRINK RAIL

The Drink Rail system beautifully matches the deck surface to the top rail.

BALUSTER OPEN MID-RAIL

Use 36in baluster panels with separate Top Rails for an enhanced 42in system.
Only offered in 42" Height. Custom ordered product. Not available in all areas.

ADA HANDRAIL

Add safety to stairs, ramps and horizontal installations. Fully compliant and current with federal ADA standards.
